Stream 1 Evaluating Interventions with No One Left Behind lenses		
9:00 – 10:30	Session 1: Evaluating Interventions with No One Left Behind lenses in the Development context Location: BR-A Brief scenic video recording without sound. Facilitator: Alexandra Chambel, UNFPA This session will focus on evaluations targeting vulnerable and marginalized groups ((VMGs). VMGs are communities that experience a higher risk of poverty and social exclusion. VMGs may include, but are not limited to: children (adolescent girls in particular), pregnant women, indigenous people, ethnic minorities, internally displaced persons, migrant workers, sex workers, persons living with HIV, persons with disabilities, and elderly persons.	Session 2: Evaluating Interventions with No One Left Behind lenses in the Humanitarian context with a focus on the Humanitarian-Development Nexus Location: M2 Brief scenic video recording without sound. Facilitator: Francesca Bonino, UNHCR One of the commitments made at the World Humanitarian Summit speaks of managing crisis risks and reducing vulnerability as much as a “humanitarian imperative” to save lives, as a “development necessity” to ensure progress towards the SDGs, and that no one is left behind. The need to transcend the humanitarian-development divide is not new and the conversation is now increasingly framed in terms of a nexus between the two. This EPE session will delve into the question of what do evaluations say (and not say) about the Humanitarian-Development Nexus.
